

Discover exciting 4x4 routes in Southern Africa

What better feeling of excitement and anticipation can there be for lovers of the outdoors than getting behind the wheel of a 4x4, turning the key and edging out of the driveway to start an outdoor journey of discovery, a great off-road adventure?

Then **4x4 Routes through Southern Africa** from Map Studio is your next best friend. The book takes a detailed look at 20 great 4x4 routes across Southern Africa from the popular Cederberg and Richtersveld regions of South Africa to the Namib Desert in Namibia and East to Lesotho and Mozambique, even as far afield as Tanzania.

Each of the 20 routes are described in vast detail with contributions from reputable 4x4 operators, giving the book a unique perspective with descriptions as seen through the eyes of local experts.

Each chapter contains a detailed day-by-day description of a 4x4 route together with maps, colour images and GPS waypoints for use in conjunction with any GPS navigation system. The book is also jam-packed with information about the local fauna & flora and includes interesting facts about each of the regions travelled as well as tourist information and accommodation listings to help plan an overnight stay.

For the serious adventurer – each chapter indicates specific vehicle requirements, a kit checklist, road conditions & warnings, multi-day trails with expert advice, special vehicle driving skills required, self-sufficiency ratings and detailed distance charts for each route.

The book comes complete with a free bonus CD which contains downloadable GPS tracks and PDF-format maps and is available nationwide for R250.
